Yoxall to Willington Gas Pipeline

Proposed Works to be undertaken at the Willington Site, Above Ground Installation (AGI):

- Clearing and levelling AGI area measuring approximately 70m x 40m.
- Excavation to allow installation and construction of a permanent fence with gated access for vehicles and pedestrians. Total approximate linear fence length and height; 220m x 2.4m.
- Excavation to prepare the construction of an AGI maintenance road within the fence line of the AGI, approximately 50m x 4m.
- Excavation and installation of approximately 70m of pipework to connect into the existing drainage network from AGI.
- Construction of 5 (Five) No. concrete foundation bases to the approximate dimensions as follows:
 - 1) 8m x 9m Filter Unit Skid concrete foundation base.
 - 2) 12m x 5.5m Metering Skid concrete foundation base.
 - 3) 4m x 3m Instrumentation Kiosk concrete foundation base.
 - 4) 15m x 3m Pig Trap concrete foundation base.
 - 5) 3.5m x 3m piping concrete foundation Base.
