

Applicant:
D Brown

Ref. No. DMPA/2019/0856
Made valid on: 31 July 2019

DECISION NOTICE

Description and location of proposal: Change of use from former medical centre to 1no. dwellinghouse with associated alterations and the formation of a dropped kerb at Rosliston Medical Unit, Main Street, Rosliston, Swadlincote, DE12 8JW

Decision made: In exercise of its powers as the Local Planning Authority under the Town and Country Planning Act 1990 and related subordinate legislation, South Derbyshire District Council hereby gives notice that permission/consent for the proposal as described above is hereby **Approved subject to the following Conditions:**

- 1 The development hereby approved shall be begun before the expiration of three years from the date of this permission.

Reason: To conform with Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

- 2 The development hereby permitted shall be carried out in accordance with the Location Plan and Drawing No.'s 1923/03A and 1923/04A received 30 July 2019 and Drawing No.1923/05A received 17 September 2019; unless as otherwise required by condition attached to this permission or following approval of an application made pursuant to Section 96A of the Town and Country Planning Act 1990.

Reason: For the avoidance of doubt and in the interests of achieving sustainable development.

- 3 Prior to being taken into use, the parking space shall laid out and constructed in a solid bound material for at least 5.5m into the site from the highway boundary and provided with a splayed vehicular crossover constructed in accordance with Derbyshire County Council's specifications for work within the highway.

Reason: To ensure adequate parking and turning provision, in the interests of highway safety.

- 4 Prior to the access being taken into use, the entire site frontage shall be cleared and maintained throughout the life of the development clear of any obstruction exceeding 600mm in height relative to the nearside carriageway edge for the first 2m into the site from the highway boundary in order to maximise emerging visibility.

Reason: To ensure safe and suitable access for all users, in the interests of highway safety.

Chris Nash

Authorised Officer of the Council

Date: 11 October 2019

- 5 All external materials used in the development shall match those used in the existing building in colour, coursing and texture unless, prior to their incorporation into the development hereby approved, alternative details are first submitted to and approved in writing by the Local Planning Authority pursuant to an application made in that regard, whereafter the approved alternative details shall be incorporated into the development.

Reason: In the visual interest of the building and the surrounding area.

- 6 Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015, or any statutory instrument amending, revoking and/or replacing that Order, the dwelling hereby permitted shall not be enlarged, extended or altered without the prior grant of planning permission pursuant to an application made to the Local Planning Authority in that regard.

Reason: To maintain control in the interest of the character and amenity of the area, having regard to the setting and size of the development, the historic significance of the site, the proximity to existing features on or adjacent to the site, and the effect upon neighbouring properties and/or the street scene.

- 7 Any gates shall be set back at least 5.5m into the site from the highway boundary and open inwards only to ensure that drivers do not park across the footway when stopping to open them causing an obstruction and hazard.

Reason: To ensure safe and suitable access for all users, in the interests of highway safety.

- 8 The proposed en-suite window at ground floor level in the east elevation of the dwelling hereby permitted shall not be glazed or reglazed other than with obscured glass to a minimum of level 3 and non opening unless the parts of the window that can be opened are more than 1.7m above internal floor level.

Reason: To maintain control in the interest of the effect upon neighbouring properties.

You are advised of the following matters:

- a. Pursuant to Section 163 of the Highways Act 1980, where the site curtilage slopes down towards the public highway measures shall be taken to ensure that surface water run-off from within the site is not permitted to discharge across the footway margin. This usually takes the form of a dish channel or gully laid across the access immediately behind the back edge of the highway, discharging to a drain or soakaway within the site.
- b. Pursuant to Section 184 of the Highways Act 1980 and Section 86(4) of the New Roads and Streetworks Act 1991 prior notification shall be given to the Department of Economy Transport & Environment at County Hall, Matlock regarding access works within the highway. Information, and relevant application forms, regarding the undertaking of access works within highway limits is available via the County Council's website, email highways.hub@derbyshire.gov.uk or telephone Call Derbyshire on 01629 533190.

In dealing with the application, and further to pre-application advice where that has been given, the Local Planning Authority has positively sought to determine the application in a timely fashion and so promote the delivery of sustainable development in the District. Where practicable, feasible and necessary, and irrespective of the above decision, officers have made proactive attempts to find solutions to identified issues or to improve the quality of the development through negotiation with applicants and/or their nominated representatives, in order to foster the delivery of sustainable development and objectives of the Development Plan.

Changes in intention: any deviation from the approved plans/drawings and/or details should be discussed with the Local Planning Authority in advance. This includes circumstances where the applicant/developer subsequently identifies inaccuracies with the approved documents or conflict with other regulatory requirements. A formal application to amend the proposals or secure a revised permission may be necessary. Failure to secure necessary approval may result in the commencement of enforcement proceedings.

Scope of this decision: this is a planning decision notice which, unless expressly applied for and stated in the description of development above, conveys no decision of associated planning consent (such as listed building or advertisement consent); nor does it convey a decision under, or override, supersede or negate, any other legislation or the need to comply with restrictive covenants under Civil Law. In particular the necessary approval under the Building Regulations and the Public Health Acts must be obtained before the carrying out of building works. Where the adopted highway, including verges and pavements, is to be altered, the Local Highway Authority (Derbyshire County Council) should be contacted to establish its requirements.

Right of appeal to the Secretary of State: if you are aggrieved by the decision of your local planning authority to refuse permission or consent for your proposal or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990, subject to the following:

- if this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, any appeal must be made within 28 days of the date of this notice;
- if an enforcement notice is subsequently served relating to the same or substantially the same land and development as in your planning application, any appeal must be made within 28 days of the date of service of the enforcement notice, or within 6 months (12 weeks in the case of a householder or minor commercial appeal, the latter as defined by Part 1 Article 2 of the Town and Country Planning (Development Management Procedure) Order 2015) of the date of this notice, whichever period expires earlier;
- if this is a decision on an application for consent to cut down, top, lop, uproot or otherwise destroy a tree or trees protected by a tree preservation order, or for a decision on a lawful development certificate for proposed works to a listed building, any appeal must be made within 28 days of the date of this notice;
- if this is a decision on an application for advertisement consent, any appeal must be made within 8 weeks of the date of this notice;
- if this is a decision on an application for householder or minor commercial development (the latter as defined by Part 1 Article 2 of the Town and Country Planning (Development Management Procedure) Order 2015), any appeal must be made within 12 weeks of the date of this notice;
- in all other cases, except for a decision on a lawful development certificate for an existing or proposed use or development, any appeal must be made within 6 months of the date of this notice.

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

Appeals must be made using a form which you can get online at www.gov.uk/planning-inspectorate or from the Planning Inspectorate at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN. The Secretary of State need not consider an appeal if it seems to them that the Local Planning Authority could not have granted planning permission or consent for the proposal or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by the Secretary of State. If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. Further details can be found online at www.gov.uk/planning-inspectorate.

Street naming and numbering: the applicant and/or developer is reminded of the Council's responsibility to issue official addresses for all residential and business premises within South Derbyshire. All new addresses are allocated in line with our street naming and numbering guidance available at www.southderbyshire.gov.uk and you are advised to engage with the Council as soon as possible to enable the issuing of any street and property names/numbers to be created by this development. Any number and/or property name that is associated with identifying individual properties must be displayed in a clear, prominent position that can be read from the roadside. It is the developer's responsibility to erect the appropriate signage once the building(s) is/are ready for occupation. There are two types of the name plate the Council uses: Type A carries the Council's crest, whilst Type B does not. You are advised that the Types are usually expected in the following locations:

- Type A: on classified (A, B and C) roads, at junctions with classified roads, and at the commencement of local distributor roads (roads acting as through routes within developments);
- Type B: intermediate name plates along local distributor roads, on collector roads (roads which run within a development providing access and linking small access roads and access ways), on access roads (roads serving a small number of houses which may also have a surface shared by pedestrians and vehicles), and access ways which have a different name from their access road; all unless at a junction with a classified road (where Type A will be expected instead).

High speed communications: the applicant and/or developer is strongly encouraged, as part of the delivery of any premises on the site, to provide full fibre broadband connections (i.e. from streetside cabinet to the property). Further details of initiatives to support the provision of full fibre connections as part of broadband installation at the site can be obtained from Digital Derbyshire on broadband@derbyshire.gov.uk.

Fire safety in new buildings: the applicant/developer is encouraged to install a sprinkler system in any new premises created on the site in order to reduce the risk of danger from fire to future occupants and property.

Purchase Notices: if permission is refused or granted subject to an unacceptable condition, and the owner of the property claims that the property has consequently become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development/work which has been or would be permitted, the owner may serve on the Council a purchase notice requiring that Council to purchase their interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

Enquiries: Any correspondence or enquiries concerning this decision should be sent to planning@southderbyshire.gov.uk quoting the above reference number.
