TITLE Building Elevations

Scale	1: 100@A0	Date	09.05.17
Drawn	RP	Checked	AW
Level datum	GNSS	Grid orientation	N/A
Job number	2159	Revision	0
Drawing no.	0001	Sheet	3 of 3

Notes

All critical measurements should be checked on site prior to design. No liability will be taken for this point if survey data is not available. All other survey data may be employed due to design uncertainty. Some services may have been limited due to parked vehicles and vegetation. Please note the damage information has been increased by visual inspection from the surface and therefore values are estimated.

This survey has been obtained from the Ordnance Survey (OS) national grid via a Global Navigational Satellite System (GNSS) and the OS Active Network (OS AN). A new OSGNSS coordinate has been established near to the sewer cover via a triangulation using the ED17811 & OSGNSS1 triangulation models. The survey has been converted to this point and a further one or more OSGNSS points established to provide a network of points. The OS AN is a network of points that has been applied to the survey therefore the coordinates shown are arbitrary and not true OS coordinates.

Please refer to the survey station table to enable establishment of the co-ordinate grid.
