Dear Mr Sylvester

Proposed Erection of Substation at Lane at Acresford Road, Overseal

The application is for a substation but also includes the creation of a parking space which, although details are not included, I assume to be in front of the proposed building. Due to the scale of the plan provided, it is difficult to scale the space between the building and the rear of the footway. However, provided that the substation is set back at least 5.5m from the rear of the footway to ensure a vehicle can pull clear of the highway to avoid overhanging the footway and causing an obstruction, there are no objections to the proposal from the highway point of view.

Yours sincerely

A handwritten signature in purple ink that reads 'S Highley'.
