Community & Planning Services

Dear Teresa

Re: Alterations at No 55 Castle Street Melbourne, DE73 8DY

Following our various discussions we now enclose our application documents in respect of planning and listed building consents for work to be carried out at the residential property No 55, Castle Street, Melbourne.

Work in the main house involves the creation of en-suite at second floor level, the removal of a wall between the kitchen and dinning room and the reslating of the kitchen roof to include a flush fitted rooflight.

The independent garage block is to be renovated and upgraded to modern building regulation standards to create a family room.

We enclose four copies of each of the following items.

- a. The ordnance survey drawing, scale 1:1250 locating the site.
- b. Drawings 420:01-07 inclusive detailing the work to be carried out.
- c. The Application Forms, including Certificate A and the Heritage Statement.

We also enclose our client's cheque in the sum of £206.00 in respect of the submission fee.

Yours Faithfully
