Subject: RE: Application ref. DMPN/2021/1491: Consultation on planning application

Good Afternoon

Thank you for consulting the Lead Local Flood Authority (LLFA) on the above planning application. The LLFA are unable to provide an informed comment until the applicant/ LPA has provided further information:

- Has the risk of surface water flowing down into the commercial development been assessed? Will a positive drainage system be needed in this particular area to stop the commercial park from flooding?
- Has the risk of surface water flow paths been created by the path been assessed? We have numerous cases across the county where paths pick up surface water flows from the adjacent land and create more problems downstream. How will this risk be mitigated?

Kind Regards
