Subject: RE: Application ref. DMPA/2021/1519: Consultation on planning application

I can confirm that I have no objections to the proposals in principle, however given the previous commercial use I recommend the following conditions:

1. a) No development shall commence until a scheme to identify and control any contamination of land or pollution of controlled waters has been submitted to and approved in writing by the Local Planning Authority, and until the measures approved in that scheme have been implemented. The scheme shall include all of the measures (phases I to III) detailed in Box 1 of Section 3.1 of the Council's 'Guidance on submitting planning applications for land that may be contaminated' (herein referred to as 'the Guidance'), unless the Local Planning Authority dispenses with any such requirement specifically and in writing.
- b) Prior to occupation of the development (or parts thereof) an independent verification report which meets the requirements given in Box 2 of Section 3.1 of the Guidance shall be submitted to and approved in writing by the Local Planning Authority. With the prior written agreement of the Local Planning Authority pursuant to part (a) of this condition, this may be carried out on a plot-by-plot basis.
- c) In the event that it is proposed to import soil onto site in connection with the development, this shall comply with the specifications given in Box 3 of Section 3.1 of the Guidance.
- d) If required by the conceptual site model, no development shall commence until monitoring at the site for the presence of ground gas and a subsequent risk assessment which meets the requirements given in Box 4, Section 3.1 of the Guidance has been completed in accordance with a scheme first submitted to and approved in writing by the Local Planning Authority.
