

Applicant:
Kilworth Machinery Limited

Ref. No. DMPA/2021/0333
Made valid on: 7 July 2021

DECISION NOTICE

Description and location of proposal: The erection of a storage building (use class B8), extension to existing workshop building (use class B2) and the continued change of use of building from agricultural to storage (use class B8) at Kilworth Machinery Limited, Annwell Lane, Smisby, Ashby de la Zouch, LE65 2TA

Decision made: In exercise of its powers as the Local Planning Authority under the Town and Country Planning Act 1990 and related subordinate legislation, South Derbyshire District Council hereby gives notice that permission/consent for the proposal as described above is hereby **Approved subject to the following Conditions:**

1. The development hereby approved shall be begun before the expiration of three years from the date of this permission.

Reason: To conform with Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

2. The development hereby permitted shall be carried out in accordance with the Workshop Proposed Floor Plan and Elevations, New Storage Building Proposed Floor Plans and Elevations and the Change of Use Proposed Floor Plans and Elevations received 05 February 2021, Existing Block Plan, Proposed Block Plan - Rev A and Location Plan received 07 July 2021; unless as otherwise required by condition attached to this permission or following approval of an application made pursuant to Section 96A of the Town and Country Planning Act 1990.

Reason: For the avoidance of doubt and in the interests of achieving sustainable development.

3. Prior to any other works commencing on site, the entire controlled Annwell Lane frontage, as shown on the application drawing outlined in red and blue, shall be cleared of any obstruction exceeding 1m in height relative to road level for a distance of 2m back from the carriageway edge. The area shall be maintained clear of any such obstructions throughout the lifetime of the development.

Reason: To ensure safe and suitable access for all users, in the interests of highway safety.

4. Prior to the new buildings being taken into use, space shall be provided within the site for the parking and manoeuvring of employees' and visitors' vehicles, as laid out in accordance with the Proposed Block Plan - Rev A and maintained throughout the life of the development free from any impediment to its designated use.

Steffan Saunders

Authorised Officer of the Council

Date: 14 December 2021

Reason: To ensure adequate parking and turning provision, in the interests of highway safety.

5. No laying of services, creation of hard surfaces or erection of a building shall commence until a scheme for the drainage of surface water from the site has been submitted to and approved in writing by the Local Planning Authority. The scheme shall be carried out in conformity with the approved details prior to the first use of each respective building served by the surface water drainage system.

Reason: In the interests minimising the likelihood of flooding incidents and damage to the environment, property or life.

6. Prior to their incorporation in to the buildings hereby approved, details and/or samples of the facing materials to be used shall be submitted to and approved in writing by the Local Planning Authority. The development shall thereafter be constructed using the approved facing materials.

Reason: In the visual interest of the building(s) and the surrounding area.

7. All planting, seeding or turfing comprised in the approved details of soft landscaping and as shown on the Proposed Block Plan - Rev A, shall be carried out in the first planting and seeding seasons following the first occupation of the buildings or the completion of the development, whichever is the sooner; and any plants which within a period of five years (ten years in the case of trees) from the completion of the phase die, are removed or become seriously damaged or diseased shall be replaced in the next planting season with others of similar size and species and thereafter retained for at least the same period, unless the Local Planning Authority gives written consent to any variation.

Reason: In the interest of the visual setting of the development and the surrounding area.

You are advised of the following matters:

- a. Any facilities, above ground, for the storage of oils, fuels or chemicals shall be sited on impervious bases and surrounded by impervious bund walls. The volume of the bunded compound should be at least equivalent to the capacity of the tank plus 10%. All filling points, vents, gauges and sight glasses must be located within the bund. The drainage system of the bund shall be sealed with no discharge to any watercourse, land or underground strata. Associated pipework should be located above ground and protected from accidental damage. All filling points and tank overflow pipe outlets should be detailed to discharge downwards into the bund.

Appropriate procedures, training and equipment should be provided for the site to adequately control and respond to any emergencies including the clean up of spillages, to prevent environmental pollution from the site operations.

We advise that polluting materials and chemicals are stored in an area with sealed drainage

We recommend that all pesticide sale and supply / distribution stores meet the recommendations of the Code of Practice for suppliers of pesticides to agriculture, horticulture and forestry and where appropriate membership of the BASIS government recognised inspection scheme.

In dealing with the application, and further to pre-application advice where that has been given, the Local Planning Authority has positively sought to determine the application in a timely fashion and so promote the delivery of sustainable development in the District. Where practicable, feasible and necessary, and irrespective of the above decision, officers have made proactive attempts to find solutions to identified issues or to improve the quality of the development through negotiation with applicants and/or their nominated representatives, in order to foster the delivery of sustainable development and objectives of the Development Plan.

Changes in intention: any deviation from the approved plans/drawings and/or details should be discussed with the Local Planning Authority in advance. This includes circumstances where the applicant/developer subsequently identifies inaccuracies with the approved documents or conflict with other regulatory requirements. A formal application to amend the proposals or secure a revised permission may be necessary. Failure to secure necessary approval may result in the commencement of enforcement proceedings.

Scope of this decision: this is a planning decision notice which, unless expressly applied for and stated in the description of development above, conveys no decision of associated planning consent (such as listed building or advertisement consent); nor does it convey a decision under, or override, supersede or negate, any other legislation or the need to comply with restrictive covenants under Civil Law. In particular the necessary approval under the Building Regulations and the Public Health Acts must be obtained before the carrying out of building works. Where the adopted highway, including verges and pavements, is to be altered, the Local Highway Authority (Derbyshire County Council) should be contacted to establish its requirements.

Right of appeal to the Secretary of State: if you are aggrieved by the decision of the Local Planning Authority to refuse permission or consent for your proposal or to grant it subject to conditions, then you can appeal to the Secretary of State under Section 78 of the Town and Country Planning Act 1990, subject to the following:

- if this is a decision on a planning application relating to the same or substantially the same land and development as is already the subject of an enforcement notice, any appeal must be made within 28 days of the date of this notice;
- if an enforcement notice is subsequently served relating to the same or substantially the same land and development as in your planning application, any appeal must be made within 28 days of the date of service of the enforcement notice, or within 6 months (12 weeks in the case of a householder or minor commercial appeal, the latter as defined by Part 1 Article 2 of the Town and Country Planning (Development Management Procedure) Order 2015) of the date of this notice, whichever period expires earlier;
- if this is a decision on an application for consent to cut down, top, lop, uproot or otherwise destroy a tree or trees protected by a tree preservation order, or for a decision on a lawful development certificate for proposed works to a listed building, any appeal must be made within 28 days of the date of this notice;
- if this is a decision on an application for advertisement consent, any appeal must be made within 8 weeks of the date of this notice;
- if this is a decision on an application for householder or minor commercial development (the latter as defined by Part 1 Article 2 of the Town and Country Planning (Development Management Procedure) Order 2015), any appeal must be made within 12 weeks of the date of this notice;
- in all other cases, except for a decision on a lawful development certificate for an existing or proposed use or development, any appeal must be made within 6 months of the date of this notice.

The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.

Appeals must be made using a form which you can get online at www.gov.uk/planning-inspectorate or from the Planning Inspectorate at Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6PN. The Secretary of State need not consider an appeal if it seems to them that the Local Planning Authority could not have granted planning permission or consent for the proposal or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order. In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by the Secretary of State. If you intend to submit an appeal that you would like examined by inquiry then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. Further details can be found online at www.gov.uk/planning-inspectorate.

Street naming and numbering: the applicant and/or developer is reminded of the Council's responsibility to issue official addresses for all residential and business premises within South Derbyshire. All new addresses are allocated in line with our street naming and numbering guidance available at www.southderbyshire.gov.uk and you are advised to engage with the Council as soon as possible to enable the issuing of any street and property names/numbers to be created by this development. Any number and/or property name that is associated with identifying individual properties must be displayed in a clear, prominent position that can be read from the roadside. It is the developer's responsibility to erect the appropriate signage once the building(s) is/are ready for occupation. There are two types of the name plate the Council uses: Type A carries the Council's crest, whilst Type B does not. You are advised that the Types are usually expected in the following locations:

- Type A: on classified (A, B and C) roads, at junctions with classified roads, and at the commencement of local distributor roads (roads acting as through routes within developments);
- Type B: intermediate name plates along local distributor roads, on collector roads (roads which run within a development providing access and linking small access roads and access ways), on access roads (roads serving a small number of houses which may also have a surface shared by pedestrians and vehicles), and access ways which have a different name from their access road; all unless at a junction with a classified road (where Type A will be expected instead).

High speed communications: the applicant and/or developer is strongly encouraged, as part of the delivery of any premises on the site, to provide full fibre broadband connections (i.e. from streetside cabinet to the property). Further details of initiatives to support the provision of full fibre connections as part of broadband installation at the site can be obtained from Digital Derbyshire on broadband@derbyshire.gov.uk.

Fire safety in new buildings: the applicant/developer is encouraged to install a sprinkler system in any new premises created on the site in order to reduce the risk of danger from fire to future occupants and property.

Purchase Notices: if permission is refused or granted subject to an unacceptable condition, and the owner of the property claims that the property has consequently become incapable of reasonably beneficial use in its existing state and cannot be rendered capable of reasonably beneficial use by the carrying out of any development/work which has been or would be permitted, the owner may serve on the Council a purchase notice requiring that Council to purchase their interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

Enquiries: Any correspondence or enquiries concerning this decision should be sent to planning@southderbyshire.gov.uk quoting the above reference number.
