Jon,

I'm spending some time this afternoon seeing where we are with this one and will do a bit more before the end of the day.

I will forward these comments on DWT to see if this will remove their objection to the scheme at this stage without a GCN survey of at least one of the ponds. If they do I will put the scheme forward.

I note the requirements to the survey on building B6 in May, but this is outside the scope of the works on this application, so I will leave this one to Kate who has taken over that application.

Did we resolve the Highway issues and the amended information they requested? I can't see that they have updated their comments from last year. I'll keep looking to see if there is any more info on this.

I think I have enough info to conclude on the drainage issues and conclude no significant effects on the SAC based on the additional information.

Kind regards

Neil Thompson
