**Subject:** RE: Application ref. DMPA/2022/0610: Consultation on planning application

The proposed development is immediately adjacent to a private residential property, and as a result the use of the car park could have a significant impact on residential amenity. Given the size of the application site, from an noise and amenity perspective the parking area would be better located further to the east.

It is also not clear whether the area will be used to provide as a pick up and drop off point for events held at Melbourne Hall, which could result in significant noise impacts during noise sensitive hours.

Further information is requested in regards how noise impacts will be mitigated prior to the application being determined.

Kind regards,
