1.0 INTRODUCTION

- 1.1 Mewies Engineering Consultants Ltd (M-EC) has been commissioned by Dove Valley Park Ltd to prepare a Framework Travel Plan (TP) for a proposed phase 2 industrial development at Dove Valley Business Park, Foston, Derbyshire. A site location plan is provided in Appendix A and proposed site layout plan is provided in Appendix B.
- 1.2 The phase 2 development will comprise four industrial units; totalling approximately 61,061sqm of B2/B8 land use, each with associated car parking and one plot of land designated for truck parking.
- 1.3 This TP should be read in conjunction with the Transport Assessment produced by M-EC (report ref. 22847/07-17/4930).
- 1.4 This TP document will focus on the sustainable measures to be implemented by the proposed development and details a package of measures designed to reduce the number of car borne journeys. It will also set out the key objectives of the TP. It should be noted that a draft version of this TP was provided to Derbyshire County Council's (DCC) Sustainable Travel Team.
- 1.5 All TPs are treated as 'living' documents that are reviewed and updated at various key stages of development implementation and occupation. Regular reviews are theretofore proposed in order to enable effective monitoring and implementation of this the TP detailed in this document.
- 1.6 M-EC has completed this report for the benefit of the individuals referred to in paragraph 1.1 and any relevant statutory authority which may require reference in relation to approvals for the proposed development. Other third parties should not use or rely upon the contents of this report unless explicit written approval has been gained from M-EC.
- 1.7 M-EC accepts no responsibility or liability for:
 - a) The consequence of this documentation being used for any purpose or project other than that for which it was commissioned;
 - b) The issue of this document to any third party with whom approval for use has not been agreed.

2.0 METHODOLOGY

2.1 The outline of this TP document is detailed below:

Chapter 3.0 Details regarding the scoping work undertaken and the key aims and objectives of the TP as well as a review of relevant national and local policy

Chapter 4.0 Provides an overview of the proposed development

Chapter 5.0 Provides a summary of sustainable accessibility in the local area as detailed in the Transport Assessment

Chapter 6.0 Analysis of Census data to interrogate existing travel to work patterns to the ward

Chapter 7.0 The package of measures that will be implemented by the development along with further aspirations to be achieved as part of the TP process

Chapter 8.0 Introducing the role of the Travel Plan Coordinator

Chapter 9.0 Monitoring

Chapter 10.0 Responsibility for implementation

3.0 SCOPE, OBJECTIVES AND POLICY REVIEW

Scope

- 3.1 The scope of this TP has been completed in accordance with the Nottinghamshire Travel Plan Guidance document and the 'STARSfor' website, both of which are recommended by Derbyshire County Council. Covered within this TP are the main targets, objectives and measures which are required in order to achieve a successful TP.

Objectives of the Travel Plan

- 3.2 The objectives of this TP have also been derived from the guidance and documents identified above used for the scoping of the TP.
- 3.3 The objectives set out will dictate the overall direction of the report and help set achievable targets to improve traffic movements locally around the site. The main targets of this TP are to;
- Reduce to a minimum the number of single-occupancy car traffic movements to and from the industrial site, subsequently reducing pressures on local highway capacity, particularly at peak travel times;
 - Address the access needs of staff and visitors by supporting walking, cycling and the use of public transport;
 - Reduce to a minimum the number of single-occupancy car movements to and from the industrial site by encouraging more active travel to improve the health and well-being of the community;
 - Enable staff to have an informed choice about their travel options. This can be achieved through the role of the TP Coordinator (see Chapter 8.0).
- 3.4 The objectives outlined above have been carefully selected to help benefit the local area surrounding the proposed site. These objectives provide short, medium and long term achievable targets, which will contribute to the success of this TP.

Policy Review

- 3.5 Following is a number of national and local policies which are deemed relevant and have thus formed the content of this report.

National policy

National Planning Policy Framework document (NPPF)

- 3.6 The NPPF states that there is a presumption in favour of sustainable development and transport policy has an important role to play in facilitating sustainable development giving people real choice about how they travel.
- 3.7 The NPPF states that a key tool to facilitate this will be a Travel Plan and all developments which generate significant amounts of movement should be required to provide a Travel Plan. Travel Plans and other documents such as Transport Statements and Assessments should be prepared to protect and exploit opportunities for the use of sustainable transport modes giving priority to pedestrian and cycle movements, ensure access to high quality public transport facilities and create safe and secure layouts which minimise conflicts between traffic and cyclists or pedestrians.
- 3.8 The NPPF states plans should take account of whether a development provides:
- The opportunities for sustainable transport modes that have been taken up depending on the nature and location of the site, to reduce the need for major transport infrastructure;
 - Safe and suitable access to the site can be achieved for all people;
 - Improvements that can be undertaken within the transport network that cost effectively limits the significant impacts of the development. Development should only be prevented or refused on transport grounds where the residual cumulative impacts of the development are **severe**.
- 3.9 In addition, the NPPF other key guidance to take into consideration includes:

National Planning Policy Guidance (NPPG) (March 2014)

- 3.10 The NPPG (March 2014) states that Transport Assessments, Statements and Travel Plans can positively contribute to:
- Encouraging Sustainable Travel
 - Lessening traffic generation and its detrimental impacts
 - Reducing carbon emissions and climate impacts
 - Creating accessible, connected, inclusive communities
 - Improving health outcomes and quality of life
 - Improving road safety
 - Reducing the need for new development to increase existing road capacity or provide new roads.

- 3.11 They support national planning policy which sets out that planning should actively manage patterns of growth in order to make the fullest possible use of public transport, walking and cycling, and focus significant development in locations which are or can be made sustainable.
- 3.12 Transport Assessments and Statements are ways of assessing the potential transport impacts of developments (and they may propose mitigation measures to promote sustainable development). Where that mitigation relates to matters that can be addressed by management measures, the mitigation may inform the preparation of Travel Plans.
- 3.13 The Transport Assessment and Travel Plan have been produced with due regard to the key elements of NPPG.

Department for Transport (DfT) – A New Deal for Transport – Better for Everyone

- 3.14 The DfT's "A New Deal for Transport – Better for Everyone" White Paper set out the framework within which detailed policies would be taken forward. The document was aimed towards creating an integrated transport policy. This means:
- Integration within and between different types of transport – so that each contributes its full potential and people can move easily between them;
 - Integration with the environment – so that transport choices support a better environment;
 - Integration with land use planning – at national, regional and local level, so that transport and planning work together to support more sustainable travel choices and reduce the need to travel;
 - Integration with policies for education. Health and wealth creation – so that transport helps to make a fairer, more inclusive society.

Communities and Local Government / DfT – Guidance on Transport Assessment (March 2007)

- 3.15 The Guidance on Transport Assessment is intended to assist stakeholders in determining whether an assessment may be required and, if so, what the level and scope of that assessment should be. It provides guidance on the content and preparation of TAs and Transport Statements which, in conjunction with other relevant policies and guidance, have been followed in the preparation of this TA.
- 3.16 Although this document has now been officially withdrawn, in the absence of further guidance it is still considered a reasonable basis for assessment.

Department for Transport (DfT) – Creating Growth, Cutting Carbon (January 2011)

- 3.17 The DfT's Local Transport White Paper "Creating Growth, Cutting Carbon – Making Sustainable Transport Happen" set out the framework within which detailed policies could be taken forward with the aim of creating:

"...a transport system that is an engine for economic growth, but one that is also greener and safer and improves quality of life in our communities."

- 3.18 The document supports the continued development of integrated transport policies and seeks to deliver growth whilst reducing the environmental impacts of transport. It also particularly targets shorter journeys, many of which could be undertaken by non-car modes where realistic alternatives are provided, and where interchange between modes can be readily achieved.

DfT – Building Sustainable Transport into New Developments

- 3.19 This document sets out the Government's guidance on how to build an effective sustainable transport system in new developments, from planning to the implementation stage. The document recommends a variety of different transport options to integrate and adopt according to the location and needs of each individual development.

Local policy

South Derbyshire Local Plan 2011 – 2028 (Part 1 adopted June 2016)

- 3.20 The South Derbyshire Local Plan is formed by 2 parts which, once both adopted will replace the 1998 Local Plan in its entirety. The parts comprise of:
- Part 1 – Is the strategic part of the Plan. It contains strategic policies comprising of: housing and employment allocations, spatial policies and development management policies.
 - Part 2 – Is to cover non-strategic housing allocations, detailed heritage and conservation policies, detailed retail policies, Green Belt review of anomalies, countryside policies and an educational policy for delivering land for a new secondary school.
- 3.21 Despite being formed of two parts, the plan is intended to be read as one document. It is noted that it is the intention of the Council to write Supplementary Planning Documents (SPDs) on topics including:
- Design;
 - Parking Standards; and,
 - Cycling.

3.22 The Local Plan Part 1 sets out 13 key strategic objectives that it aims to meet, these include:

- 3 – To enable, support and promote a robust and diverse economy resistant to downturns and providing a strong base for sustainable growth which respects environmental limits and safeguards natural resources.
- 6 – To ensure sustainable living and working in urban and rural communities.
- 7 – To reduce the need to travel and to encourage necessary travel to be by sustainable modes of transport, providing access to jobs, shopping, leisure, services and facilities from all parts of the district.

Derbyshire Local Transport Plan – Local Transport Plan 3 – (2011 – 2026)

3.23 The Derby Local Transport Plan, which was produced in 2011, is the third Local Transport Plan for Derby (LTP3) and covers the period from 2011 to 2026. The document is mainly centred on the long term transport strategy up to and including 2026 setting out Derby's transport network, summarizing key trends and describing how LTP3 related to other Council policy documents. Derby's Transport Vision is to:

"...provide people living and travelling within Derby with viable travel choices and effective and sustainable transport networks"

3.24 The LTP3 highlights Derby's Transport Goals which will address local issues, and setting targets upon the completion of the LTP3 date. These goals are:

- Goal 1 – To support growth and economic competitiveness, by delivering reliable and efficient transport networks.
- Goal 2 – To contribute to tackling climate change by developing and promoting low-carbon travel choices.
- Goal 3 – To contribute to better safety, security and health for all people in Derby by improving road safety, improving security on transport networks and promoting active travel.
- Goal 4 – To provide and promote greater choice and equality of opportunity for all through the delivery and promotion of accessible walking, cycling and public transport networks, whilst maintaining appropriate access for car users.

- Goal 5 – To improve the quality of life for all people living, working in or visiting Derby by promoting investment in transport that enhances the urban and natural environment and sense of place.
- 3.25 The LTP3 also highlights Derby's Transport Challenges which the city faces in relation to the above transport goals. The LTP3 highlights 9 challenges within the document providing solutions to any challenges faced upon achieving the goals outlined above.
- 3.26 The five Derby LTP3 Goals and nine Challenges were developed following detailed consultation with the LTP Steering Group, other key stakeholder organisations and the public. These goals and challenges were used to assist with the development of the long term transport strategy for LTP3.

National and Local policy

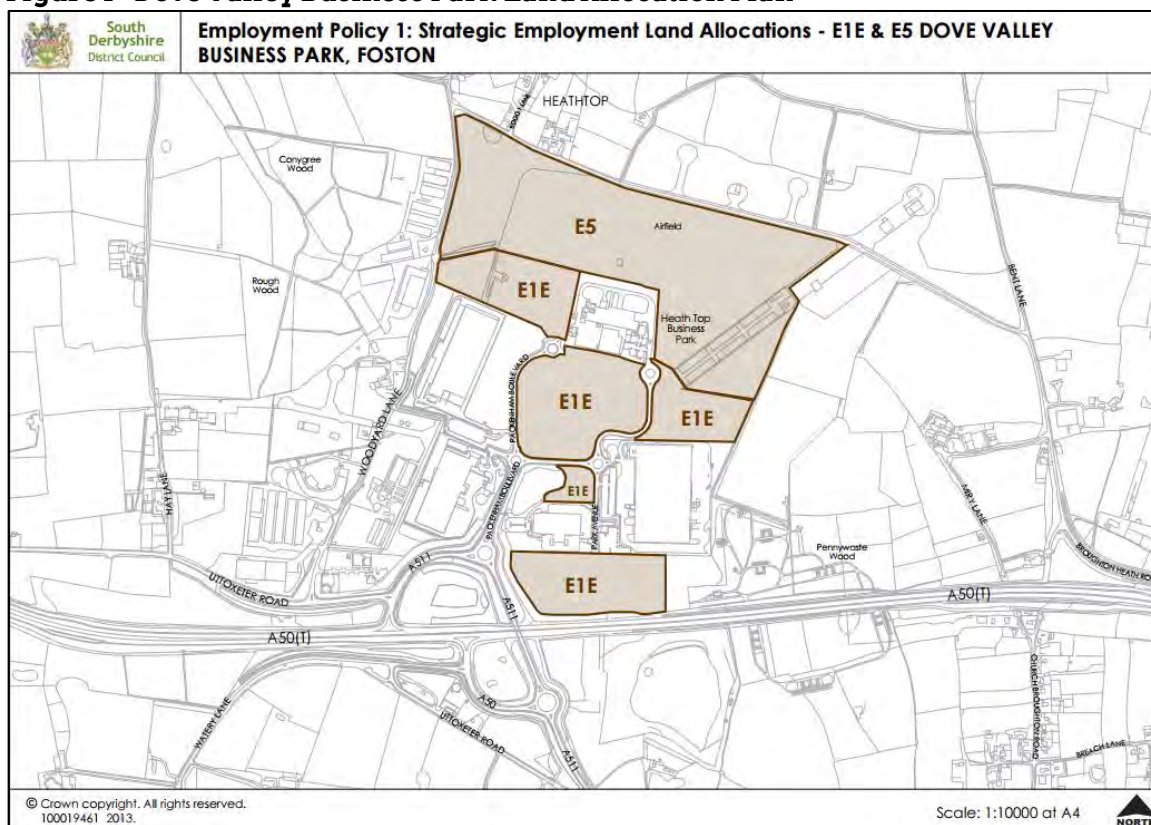

DfT Good Practice Guidelines: Delivering Travel Plans through the Planning Process (2009)

- 3.27 The DfT good practise guidance defines a Travel Plan as a 'long –term management strategy for an occupier or site that seeks to deliver sustainable transport objectives through positive action and is articulated in a document that is regularly reviewed'. The document itself sets out actions that can be undertaken to produce robust, efficient travel plans which will be successful over a monitored time frame.
- 3.28 The Good Practice Guidelines sets out to assistance those involved in producing and applying travel plans – local authority planners, transport and travel plan officers, developers and consultants – understand the processes involved achieving successful and sustainable travel plans. Through sited policies, processes, procedures and good practice examples the report highlights how to secure effective travel plans that are successful, sustainable and enforceable.

4.0 SITE DESCRIPTION & DEVELOPMENT PROPOSALS

Existing Site

- 4.1 The site is located in Foston to the north of the A50 and to the north of the existing Phase 1 development at Dove Valley Business Park. Foston is located within South Derbyshire District and is situated approximately 12km west of Derby city centre, 11km east of Uttoxeter and 8.5km North West of Burton-on-Trent.
- 4.2 The site is bound to the north by open fields and an unnamed road running through the hamlet of Heathtop. Woodyard Lane forms the western boundary with the site boundary to the east comprising of open fields and an abandoned aircraft runway presently occupied as Heathtop Business Park. The Dove Valley Park Phase 1 industrial development provides the southern site boundary.
- 4.3 The development site is allocated as a 'Safeguarded Employment Site' referred to as Policy E5 as part of South Derbyshire Council's Local Plan Part 1, due to its attractive location in the A50 corridor and the associated established highway links between the A50 and the Phase 1 part of the site.
- 4.4 The 28.3ha parcel of land, identified as E5 in Figure 1 overleaf, has been allocated solely for developing large scale industrial and business units defined by B2 and B8 land use classes, bound by a restriction that the minimum GIA per unit is 15,000sqm to ensure the site is developed as per its intended purpose.

Figure 1 - Dove Valley Business Park Land Allocation Plan**Proposed Development**

- 4.5 The proposed development site centred within grid reference 420474, 332540 will comprise of 3 separate buildings totalling approximately 61,061sqm of B2 and B8 land uses and an additional truck parking area (Plot P2-04), as demonstrated by Figure 2 overleaf with the full site layout plan provided in Appendix B.
- 4.6 The development quantum for the site is as demonstrated in Table 1 below.

Table 1 - Proposed Development Quantum

Unit	Plot Size (ha)	GIA (sqm)	No. Parking Spaces
Plot P2-01	8.02	26,128	Cars – 236 (1 space per 110sqm)
Plot P2-02	4.34	17,753	Cars – 179 (1 space per 100sqm)
Plot P2-03	6.19	17,180	Cars – 274 (1 space per 63sqm)
Plot P2-04	2.26	n/a	Trucks - 104

Figure 2 - Indicative Site Layout Plan**Traffic Impact**

- 4.7 Details of the traffic impacts the proposed development will have on the surrounding highway network are covered within M-ECs Transport Assessment (Ref: 22847/07-17/4930).

5.0 SUSTAINABILITY

Existing Pedestrian Facilities

- 5.1 Existing footways are currently located along both sides of Packenham Boulevard and Park Avenue, providing direct access to the site. These footways connect to the wider footway network on the northern side of the A511 Foston Interchange providing access to the hamlet of Foston. Further footways along the eastern side of the A511 Foston Interchange provide access to the villages of Hatton and Hilton. Drawing No. 22847_08_010_02 in Appendix C illustrates the local highway network, coupled with local facilities and amenities within the vicinity of the site.
- 5.2 All footways in the vicinity of the site are approximately 1.8m-2.0m in width and are in good condition, with street lighting located on one side of the carriageway at a minimum, thus providing a good level of uniform coverage. Whilst dropped kerbs are found in places, improvements could be made to these features to better facilitate the safe movement of pedestrians across the carriageways; in particular the visually impaired who may struggle due to the alignment of these crossings, this is discussed further in para. 5.20.

Existing Cycling Facilities

- 5.3 The 2011 Census found that nationally, approximately 2% of people who commute do so principally by cycle. DfT 'Local Area Walking and Cycling Statistics 2014/2015' noted that approximately 15% of the population cycle at least once a month as part of a utility or recreational journey.
- 5.4 DfT National Statistics fact sheet 'Cycling in Great Britain' (January 2003) stated that the average length of a cycle stage was 2.4 miles (3.86km) and that 90% of cycle trips were under 5 miles (8km) in length. These distances are consistent with the previous PPG13 guidance which stated that cycling offers strong potential to substitute for car trips for those journeys under 5km, or those made as part of a multi-modal trip that includes cycling and public transport (especially rail). A 5km distance is equivalent to a typical cycling time of 15 to 20 minutes.
- 5.5 A review of *Sustrans.org.uk* indicates that National Cycle Route 549 is located approximately 2.5km south of the site, though it should be noted that as highlighted during a visit to the site, many cyclists utilise the existing highway network for cycling in the vicinity of the site.

- 5.6 National Route 549 connects Hurdlow (Peak District) with Etwell via Waterhouses and Uttoxeter. More relevant to the site, the route provides a link to nearby villages such as Sudbury heading west, and Hatton and Hilton heading east. The route is largely an on-road route, with minor sections classified as traffic-free to the east of Hatton.

Figure 3 - Sustrans Cycle Route Map

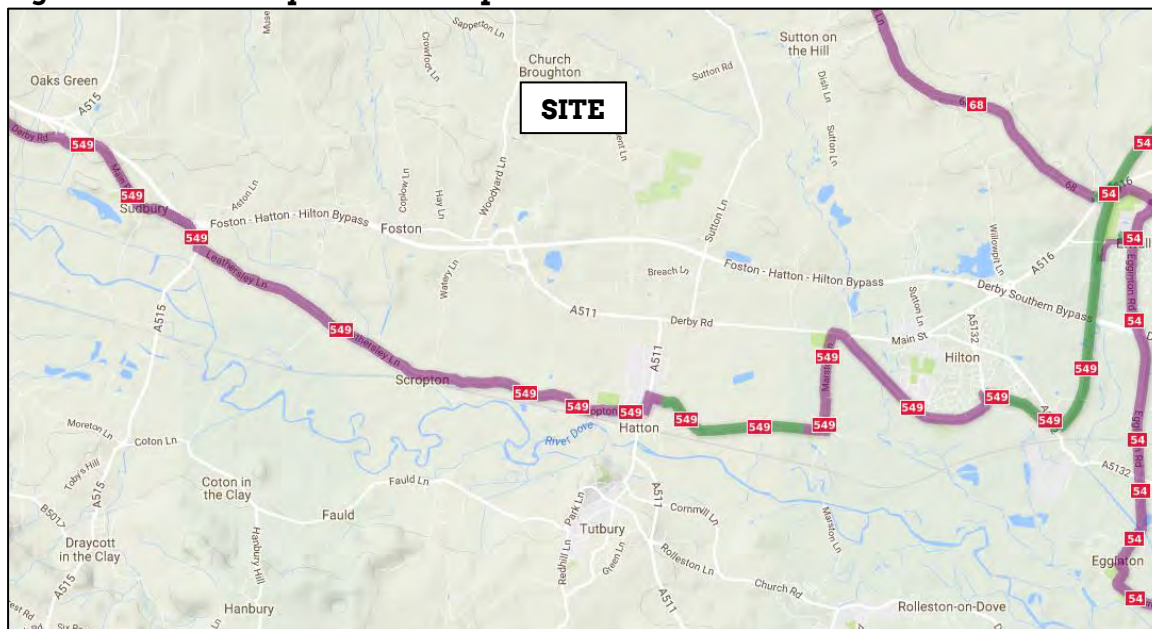

Image source: Sustrans.org.uk

South Derbyshire District Council Cycling Strategy

- 5.7 The South Derbyshire Cycling Strategy (2001) proposes a series of new cycle paths, some of which will connect to the existing National Routes as identified in Figure 3. A map showing the proposed cycle paths in the vicinity of the proposed site can be seen in Figure 4 overleaf.
- 5.8 The following proposed cycle paths are deemed the most relevant to the proposed site due to their locations, providing good quality, safer connections from many of the surrounding residential areas in to and through Dove Valley Business Park for cyclists:
- 223-222 (Church Avenue junction with Station Road to Station Road junction with A511 Uttoxeter/Derby Road).
 - 222-230 (Station Road junction with A511 Uttoxeter/Derby Road to A511 Uttoxeter Road roundabout).
 - 230-232 (A511 Uttoxeter Road roundabout to Cote Bottom Lane junction with Tippers Lane).

- 229-230 (A511 Uttoxeter Road roundabout to Watery Lane junction with Leathersley Lane/Scropton Road).

Figure 4 - South Derbyshire Cycling Strategy (2001)

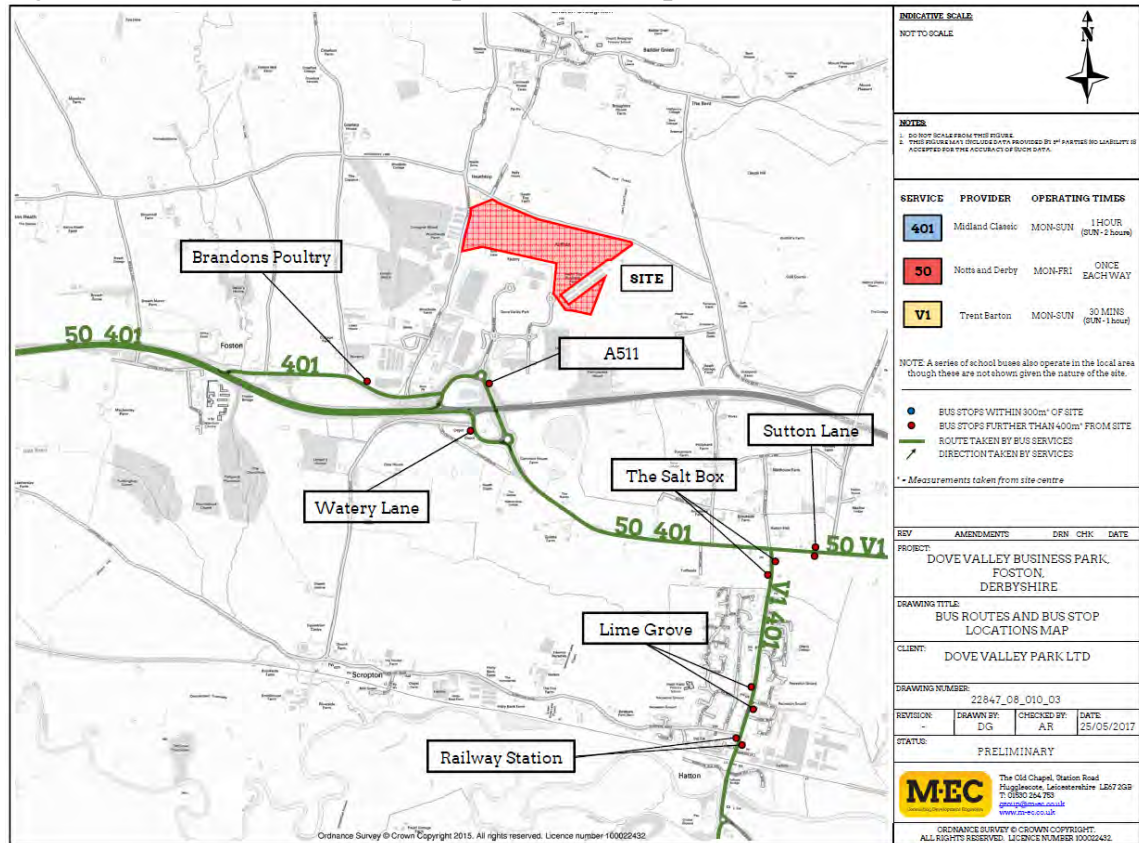

The Derbyshire Cycling Plan (2016-2030)

- 5.9 The proposed development would provide suitable connectivity to the routes outlined within Figure 4 in accordance with The Derbyshire Cycling Plan.

Existing Public Transport Facilities

Bus

- 5.10 There are a couple of bus services operating within the local area in the vicinity of the site as demonstrated by Figure 5 overleaf.

Figure 5 - Bus Routes and Bus Stop Locations Map

- 5.10 The A511 bus stop is located approximately 900m walking distance from site centre, positioned on the western side of the A511 Uttoxeter Road carriageway, on the southern side of the A50. The stop consists solely of a flag mounted on an existing lighting column with no other features. Access to this stop is achieved by heading south on Pakenham Boulevard, south on the A511 Uttoxeter Road over the A50; this route is fully-lit and maintains tarmac footways of approximately 1-8m-2.0m. The bus stop is served by the 401 service; further details of which are provided in Table 2 overleaf.
- 5.11 Bus timetable information is outlined in Table 2 overleaf, and can also be found attached, as part of Appendix D. Timetable information in Appendix D has also been provided for bus service V1 which serves Hatton village, to demonstrate the services that may be further accessed via walking, cycling or using one bus service 401 as part of a multi-modal journey.

Table 2 - Summary of Public Transport Services

Service	Operating Days	Frequency	Route	Provider
401	Mon – Fri 06:00 – 22:05	Approximately Every 60 mins	Burton upon Trent to Uttoxeter Town Centre	Midland Classic
	Sat 07:00 – 22:05			
	Sun 09:35 – 18:06	Approximately Every 120 mins		
50	Mon – Fri 14:57	Once per day	Derby to Uttoxeter Town Centre	Notts and Derby

Timetable data taken from travelineeastmidlands.co.uk

Rail

- 5.12 Tutbury & Hatton railway station is the most accessible station to the site and is located 3.7km south-east of the site. The station, which is managed by East Midlands Trains, provides direct access to destinations including Derby and Crewe. The station which operates Monday to Sunday, provides a total of four cycle stands. Table 3 provides details on rail services from Tutbury & Hatton railway station.

Table 3 - Summary of Train Services Operating from Tutbury & Hatton Railway Station

Route	Frequency (at peak)	Approx. Travel Time
Tutbury & Hatton to Derby	Up to 2 times per hour	18 minutes
Tutbury & Hatton to Stoke-on-Trent	Up to 1 time per hour	38 minutes
Tutbury & Hatton to Crewe	Up to 1 time per hour	65 minutes

Timetable data taken from nationalrail.co.uk

- 5.13 Tutbury & Hatton railway station can be accessed directly via bus service 401 from Brandons Poultry bus stop; the journey of which takes approximately 6 minutes. The proposed site can equally be accessed via arrival at Tutbury & Hatton railway station and taking the 401 bus service to the Watery Lane bus stop; again a 6 minute journey time. As identified from a visit to the site and surrounding area, cyclists can access the railway station by cycling on the A511 Uttoxeter Road carriageway from the site into Hatton village.
- 5.14 The station consists of two platforms providing access to train services operating in opposing directions, with a shelter on each platform and no further facilities.

Facilities and Accessibility Assessment

- 5.15 A facilities and accessibility assessment has been undertaken to determine the location of key local facilities/amenities in relation to sustainable transport modes in order to illustrate that the site is located within a suitable travel time to these services.
- 5.16 As demonstrated by Drawing No. 22847_08_010_02 in Appendix C, the majority of facilities and amenities in the vicinity of the site are located within Hatton village. The facilities including multiple cafes, restaurants/takeaways, public houses, supermarkets, a pharmacy and a petrol station are largely situated along the A511 Station Road which runs in a north-south direction through the centre of Hatton. With all the facilities and amenities being located between 2.5km and 3.7km from the site, they are accessible via: a 30-44 minute walk, a 10-15 minute cycle journey or the aforementioned bus services.
- 5.17 The DfT National Travel Survey (England) 2015 found that walking constitutes 22% of all journeys made in a year, and that approximately 4 out of 5 (76%) of all working trips were under a mile (1.6km). On average, people are willing to travel 18 minutes per walking trip. Whilst the facilities and amenities local to the site as demonstrated by Drawing No. 22847_08_010_02 are further than the desired 1.6km walking distance identified by the DfT National Travel Survey. Section 5.20 identifies measures to improve walking journeys so as to increase uptake in spite of the longer than average distance.
- 5.18 The DfT National Statistics fact sheet 'Cycling in Great Britain' (Jan 2003) stated that the average length of a cycle stage was 2.4miles (3.86km) and that 90% of cycle trips were under 5 miles (8km) in length. These distances are consistent with the previous PPG13 guidance which stated that cycling offers strong potential to substitute for car trips for journeys under 5km, or those made as part of a multi-modal trips that include cycling and public transport (especially rail). A 5km distance is equivalent to a typical cycle time of 15 to 20 minutes. As such, Drawing No. 22847_08_010_02 shows that many of the key facilities are also within a sensible and sustainable commute time via cycle. Due to the already good conditions for cycling, it is not deemed that any mitigation measures will be required.

- 5.19 Whilst there are a couple of bus services operating within the local area, none of them have stops located within the walking distance of the site, as set out by The Institute of Highway and Transportation's document entitled "Guidelines for Planning for Public Transport in Developments" (1999) which recommends a 400m walking distance to the nearest bus stop. However, the document later goes on to state that this distance is 'quoted for guidance' and 'should not be followed slavishly if that would lead to complex or indirect bus routes'. This document has informed the proposed measures to improve Bus Journeys in Section 5.24.

Proposed Measures to Improve Walking Journeys

- 5.20 Several of the dropped kerb pedestrian crossing points near the site lack tactile paving therefore, it is proposed to include tactile paving in these locations to assist pedestrian journeys between the site and the surrounding residential areas/bus stops, as demonstrated in Figure 6 below (photograph taken on the western arm of the A511 Uttoxeter Road roundabout, south of the site).

Figure 6 - Pedestrian Dropped Crossing

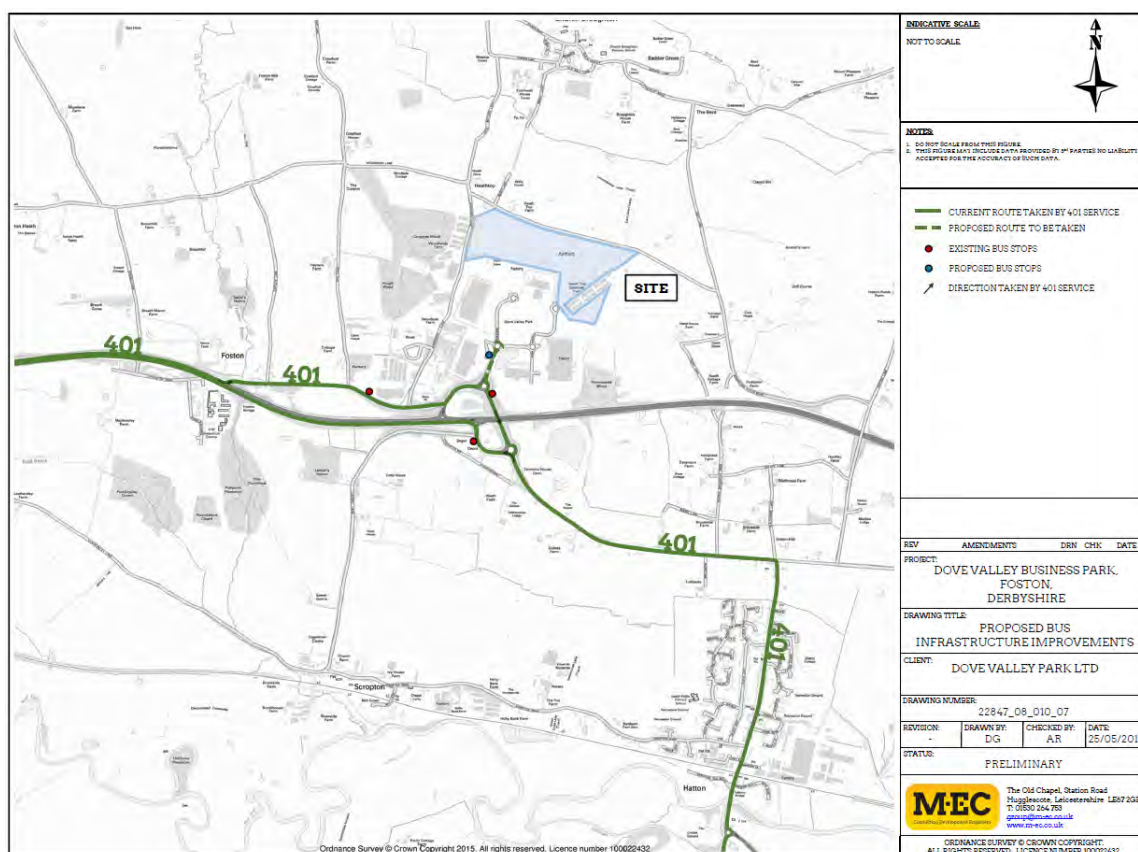

- 5.21 An additional measure would be to curtail the vegetation along the local footway network which has overgrown and presently obstructs the routes that pedestrians would make. This measure would increase the quality and therefore the appeal of walking-borne journeys.

Proposed Measures to Improve Bus Journeys

- 5.22 The principal issue with the bus service accessibility to the site is that the nearest stop to the site is approximately 900m from the site centre, in excess of the 400m guideline.
- 5.23 In order to improve connectivity to the local bus facilities, it is proposed to reroute the 401 service so that it circulates around the Packenham Boulevard/ Park Avenue roundabout bringing the service closer to the site.
- 5.24 It is also proposed to implement a new bus stop along Packenham Boulevard to reduce the walking distance currently experienced at the site and to promote sustainable travel further. This is shown on Drawing 22847_08_010_07 attached as part of Appendix E and also shown overleaf in Figure 7.

Figure 7 - Proposed Bus Route Plan

- 5.25 It is possible for the route to be rerouted in both directions so when heading towards Uttoxeter from Hatton, the route detours towards the Packenham Boulevard/ Park Avenue over the Foston Interchange bridge before heading to the A50 as normal.
- 5.26 The route would only be required to be deferred during peak hours AM, PM and lunch in line with the shift patterns offered by the end user. As the end user is not yet known, no further details can be provided.

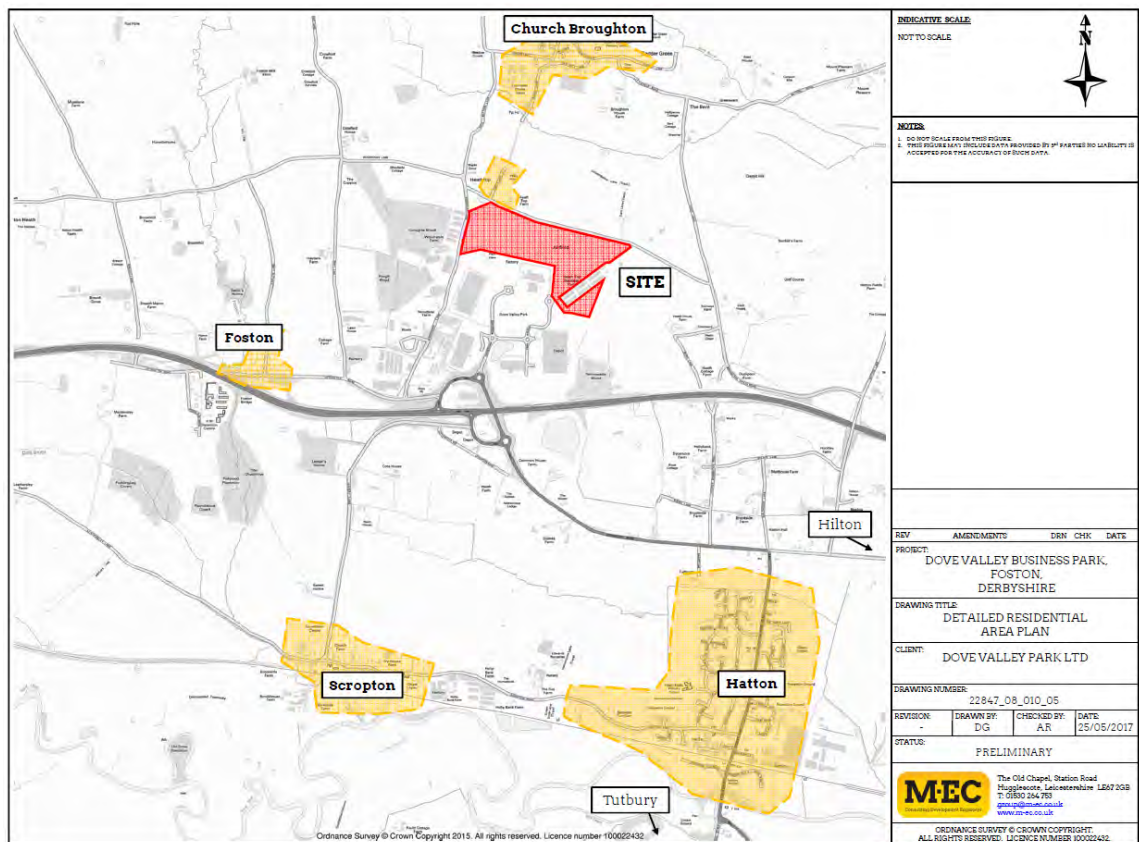

Residential Accessibility

5.27 A number of key residential areas are accessible to the site, with the list below demonstrating a catchment area from which the proposed site may acquire its employees, who would have the potential to walk or cycle to work. Some of the most accessible residential areas include:

- Church Broughton
- Foston
- Hatton
- Scropton

5.28 These areas are marked on Drawing 22847_08_010_05 and can be found below in Figure 8 as well as attached as part of Appendix F.

Figure 8 - Residential Area Plan

Accessibility Conclusion

5.29 It is noted that the proposed site is to be located within safeguarded land for further development to the existing Dove Valley business park, therefore suggesting the distance to facilities and amenities and availability of accessible transport modes has been accepted and sufficient for existing businesses and their staff.

Sustainability Conclusion

- 5.30 The phase 2 commercial development would not give rise to any sustainability concerns based on the information reviewed within this chapter of the report. The site is located in a sustainable location for a commercial development; being on land allocated for the purpose of a phase 2 development, with access to public transport links (bus and rail), as well as good quality existing infrastructure providing a link from the site to surrounding residential areas. Proposed measures have also been outlined in order to increase the take up towards more sustainable modes of travel for employees and visitors.
- 5.31 The development is also in line with relevant policies from the NPPF and therefore should not be refused on the grounds of sustainability.

6.0 TRAVEL TO WORK TRIP ANALYSIS & TARGETS

- 6.1 In order to ascertain existing travel patterns in the local area, 2011 Census data has been obtained from the Office for National Statistics (ONS) for travel to workplaces in the Hilton ward.
- 6.2 Table 4 below provides a summary of the Travel to Work statistics for the Hilton ward taken from the 2011 census.
- 6.3 It is important to note that 333 of these people currently work from home. These people are still considered as having a potential travel demand to the ward, as their circumstances may change, and their employers may implement policies or practices making them more or less able to work from home. Full details of the travel to work statistics are provided in Appendix G.

Table 4 - Summary of Travel to Work Statistics

Method of Travel	Persons	Percentage (%)
U/ground, Metro, Tram	6	0.1%
Train	73	1.4%
Bus, Minibus, Coach	103	1.9%
Taxi	5	0.1%
Powered 2-Wheeler	25	0.5%
Driving Car or Van	4251	79.4%
<i>*Of which Single-Occupancy</i>	<i>4034</i>	<i>75.3%</i>
<i>*Of which Multi-Occupancy</i>	<i>217</i>	<i>4.1%</i>
Passenger in Car or Van	217	4.1%
Bicycle	62	1.2%
On Foot	248	4.6%
Other	33	0.6%
Work from Home	333	6.2%
TOTAL	5356	100%

**Rounding has occurred*

- 6.4 The census data provided above shows the majority of economically active residents within the Hilton ward drive to work (79.4%) with 4.1% of this figure being passengers. The percentage of single occupancy vehicles can be estimated by subtracting the percentage of 'Passenger in Car or Van' from the percentage of 'Driving Car or Van'. Walking and cycling make up 5.8% of all trips to work.

- 6.5 The census data illustrates that 79.4% of the economically active residents within the Hilton ward drive to work in comparison to that of the National average of 57%. The TP will aim to significantly reduce the number of single occupancy car journeys by promoting realistic sustainable travel modes in the area.
- 6.6 Due to the fact that the end users of the proposed development are not yet known, specific modal shift targets cannot be provided, however once the end users are known, more details regarding the TP and targets will be provided by the developer.
- 6.7 A comprehensive survey of staff who will be employed at the proposed development will be undertaken as soon as possible after occupation of each unit or within three months at the latest. The results of the initial survey will inform the final TP targets for each unit and for the development as a whole.
- 6.8 The aim of reducing single occupancy car trips will be achieved through a series of SMART (specific, measurable, attainable, realistic, time bound) targets, following the implementation of the package of measures outlined in Chapter 7.0 of this TP.

7.0 PACKAGE OF MEASURES

- 7.1 This chapter will list and provide information on the measures to be implemented as part of the development in order to meet the key aims and objectives which will be influenced by the staff survey commented on within Section 6.0 of this report. This chapter will seek to confirm the proposals to be implemented and at what stage in the development.

Information Packs

- 7.2 Information Packs will be provided to all employees upon completion of the development. The packs will be updated every 12 months for a period of five years and reissued to existing and new workers. The packs will provide the following information:

- Plans of safe pedestrian routes to local residential areas and amenities, including details for of the website www.derbyshire.gov.uk/leisure/countryside/access/walking, providing further information on walking in Derbyshire;
- Information on cycle storage and provision for cyclists, including details of the website www.derbyshire.gov.uk/transport_roads/road_safety/bicycles which provides further information on cycling within Derbyshire;
- Bus timetable information and route maps of services, including details of useful websites such as www.travelineeastmidlands.co.uk and www.derbybus.info;
- Information about the Travel Plan including how it works, why it is required and its purpose;
- Details of the role and purpose of the Travel Plan Coordinator (TPC) also including contact details;
- Provide details of car share websites such as liftshare.com. Information will be provided in relation to a possible company based lift share initiative.

Information Boards/Posters

- 7.3 Information boards/posters will be provided in a prominent location in each unit such as the staff entrance of canteen areas, to provide important information concerning the use of sustainable transport modes to/from the site. Local bus operators will be asked to provide important information for the boards including timetable changes and any potential discount bus and rail opportunities. The board will also reinforce what is

provided within the information pack by illustrating important walking and cycling routes to/from the site. The TPC will be responsible for updating information on the board as well as providing their contact details should employees wish to contact them to discuss individual travel plans.

Dedicated Car Share Car Parking Spaces

- 7.4 Specific car parking spaces for each unit will be designated for car sharers, to encourage car sharing through the guarantee of a parking space in close proximity to the unit entrance.

Promotion of Car Share Websites/Databases

- 7.5 Details of both local and national car share databases will be promoted to all employees by the TPC, with details also provided in the Information Packs. Employees will be encouraged to register with websites such as liftshare.com/uk/community/derbyshire, which enable employees to register their journey details on national/local databases. Their journey details are then checked against the database of other local employees/residents signed up to the car share scheme, and a trip-matching exercise is undertaken.
- 7.6 The TPC will assist employees in trying to establish trip matches or be responsible for implanting a company based car share scheme by obtaining travel information from each individual employee through a questionnaire.

Cycle storage and Changing Facilities

- 7.7 Cycle parking in the form of covered Sheffield stands is to be provided adjacent to each unit. The stands will be provided in locations that are well-lit, with optimum accessibility to/from the unit's main entrance, so as to encourage and promote safe cycle usage.
- 7.8 Changing facilities including showers, and lockers will be provided in each unit so as to maximise the potential uptake towards cycling by enabling those travelling to work by cycle to change pre/post the working day. Establishing a cycle user group is to be considered, providing employees with additional incentives such as free maintenance checks, issuing of repair kits, and safety apparel (high vis vests, LED lights etc).

Communication Strategy

- 7.9 The TPC will involve employees in local and national events to promote sustainable travel, with events such as the following:

- National Walking Month – www.livingstreet.org.uk/what-you-can-do-campaigns/national-walking-month-2017
- Catch the bus week – www.catchthebusweek.co.uk
- Cycle to work day – www.cycletoworkday.org
- National Bike Week – <http://bikeweek.org.uk>
- Love to Ride – www.lovetoride.net

The TPC will develop and distribute leaflets to summarise the site specific sustainable travel options.

- 7.10 The TPC should consider developing different communication platforms such as a website providing the relevant travel information for the site and social media accounts allowing easy communication between employees and the TPC. Employee travel forums should also be considered, which could comprise a bicycle user group (BUG), a walking group, a travel plan group, and a site specific car share group. All of these forums will aid in increasing communication and further promoting sustainable travel.

Corporate Social Responsibility

- 7.11 The TPC will engage employees by promoting healthy lifestyles through a variety of methods such as:
- www.workplacechallenge.org.uk/derbyshire - Register with the website to become a company administrator, being provided with information and resources to promote the workplace challenge to employees. The challenge involves making small changes throughout the working day to become healthier and could involve changing the method of travel to work as an example.
 - Business in the Community (www.bitc.org.uk) - The end users are encouraged to consider joining BITC, which seeks to help companies become more sustainable in multiple ways, largely by strengthening links with the wider community.

Public Transport Improvements

- 7.12 As detailed in Section 5.0, a number of measures are proposed to improve bus journeys and increase uptake of those travelling by bus. The measures include extending the existing 401 bus service to a new bus stop along Pakenham Boulevard, so that the

service serves closer to the site. The stop will comprise shelter provision with timetable information, accessible kerbs and a mounted flag-and-pole.

Pedestrian Improvements

- 7.13 It is proposed that the existing crossings situated between the A511/ Packenham Roundabout comprises tactile to assist with pedestrian movement. In addition to the tactile paving provision, overgrown vegetation which obstructs the public footways which links towards the site will be trimmed.

Visitors Transport Provision

- 7.14 Visitors to the site will be encouraged to use public transport, walk or cycle where possible. Group taxis from Tutbury and Hatton Train Station to the site will be investigated, so as to encourage the use of public transport and reduce single car occupancy journeys.

8.0 THE TRAVEL PLAN CO-ORDINATOR ROLE

- 8.1 The Travel Plan Coordinator (TPC) will act as the promoter of the components of the TP and will be a key contact point for employees and other people who will use the site. They will ensure employees understand their travel choices to work, providing details of how those who wish to change their travel patterns can do so.
- 8.2 The TPC will be appointed by the developer and will coordinate the TP for the whole site. The TPC will be funded by the developer of the site, with their details including working hours being passed onto DCC's 'Sustainable Travel Team' upon appointment.
- 8.3 The main responsibilities of the TPC will be to:
- Ensure delivery of the travel incentives once the TP is approved;
 - Promote the individual measures of the TP;
 - Ensure the approved TP and its component parts are being actioned;
 - Monitor the TP and its implementation;
 - Promote the principals of and provide the information detailed in the package of measures;
 - Produce the annual report and necessary surveys amongst employees, and;
 - Provide bespoke and personalised travel planning to employees.
- 8.4 The TPC will be required to carry out an annual survey on all employees to establish the actual number of movements by different transport modes and travelling distances involved, subsequently reporting these to the monitoring authority.
- 8.5 The initial survey would also include the following:
- Attitudes towards sustainable modes of transport;
 - Preferences for their current mode of transport and why it is chosen;
 - Attitudes to changing their preferred mode of transport;
 - Cost effective measures to induce the shift from private car usage to other sustainable modes of transport, and;
 - Areas of residence to establish the potential for using any of the various alternative modes of travel including walking, cycling, public transport or car sharing.

9.0 MONITORING

- 9.1 All employees will be surveyed by the TPC in order to complete a baseline travel questionnaire. The TPC will also discuss their current travel patterns and highlight how alternative methods of transport could be utilised through a travel questionnaire. The discussions will also outline the key principles of the TP and how employees will help achieve a lasting modal shift. The results of this would then be sent to DCC's Sustainable Travel Team to assess how the TP is going against its targets. The objective of the review will be to assess the success of the plan and to identify the potential for future refinement of the TP.
- 9.2 Employee travel surveys are to be undertaken annually for a five year period from final occupation. The results of each survey will be summarised and submitted to the Local Planning Authority and DCC in the form of an annual monitoring report. The report will identify actions that have been undertaken and any additional actions to be undertaken within the following 12 months.
- 9.3 The major element of the review will involve the re-issue of the travel questionnaire to every employee. Analysis of the re-issued travel questionnaires will also yield more up to date mode split information to be included within the annual report.
- 9.4 Should the monitoring and review process highlight that the development is not succeeding in reducing single car occupancy trips (or those subsequently established based on updated travel data), then the TPC will work with DCC to identify further ways to achieve the targets set out. Such remedial actions could include implementing new measures or revitalising old measures and additional Travel Plan monitoring initiatives.

10.0 IMPLEMENTATION

10.1 Table 5 below provides a summary of the entire package of measures detailed within this report and when they are to be implemented.

Table 5 - Implementation & Monitoring Programme

Key Area	Measure	Date	Monitoring/ Measurable
Marketing & Publicity	Introduce Information Packs for all users.	On Occupation	Review after 3 months of unit occupation, then every 12 months for 5 years
	Produce a map publicising sustainable travel routes and alternative means of transport.		
	Consult regularly with staff, promoting events in the communication strategy.		
	Corporate Social Responsibility		
Pedestrians & Cyclists	Provide information on local cycle and pedestrian routes.	Prior to Occupation	Review after 3 months of unit occupation, then every 12 months for 5 years
	Provide safe, secure cycle parking and changing facilities to encourage cycling.		
	Provide Tactile Paving at Crossings		
Public Transport	Increase awareness of public transport alternatives.	Prior to Occupation	Review after 3 months of unit occupation, then every 12 months for 5 years
	Provision of new bus stop along Packenham Boulevard		
Car Sharing	Promote car share schemes and assist in finding sharers.	Prior to Occupation	Review after 3 months of unit occupation, then every 12 months for 5 years
	Provide priority car share parking spaces to encourage car sharing.		

- 10.2 The implementation of the TP will be the responsibility of the developer of the site. Monitoring of the TP and updating of all information contained herein this document will fall to the developer of the site; however this will be undertaken by the appointed TPC.
- 10.3 The TP must be agreed prior to first occupation of the site and the active implementation of the TP on site will commence as detailed above. Various measures relating to the plan will be implemented as agreed in this document.

Service Restrictions: 3 - from 3.6.17
4 - to 27.5.17
5 - from 4.6.17

Notes: s - sets down only
* - Part or all of this journey operates in the morning of the following day
§ - Time at this stop is indicative. You are advised to be at any stop several minutes before the times shown

**V1****Derby - Etwall - Tutbury - Burton**

Trent Barton - the villager

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgt 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Continued from previous page.

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgt 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

**V1****Derby - Etwall - Tutbury - Burton**

Trent Barton - the villager

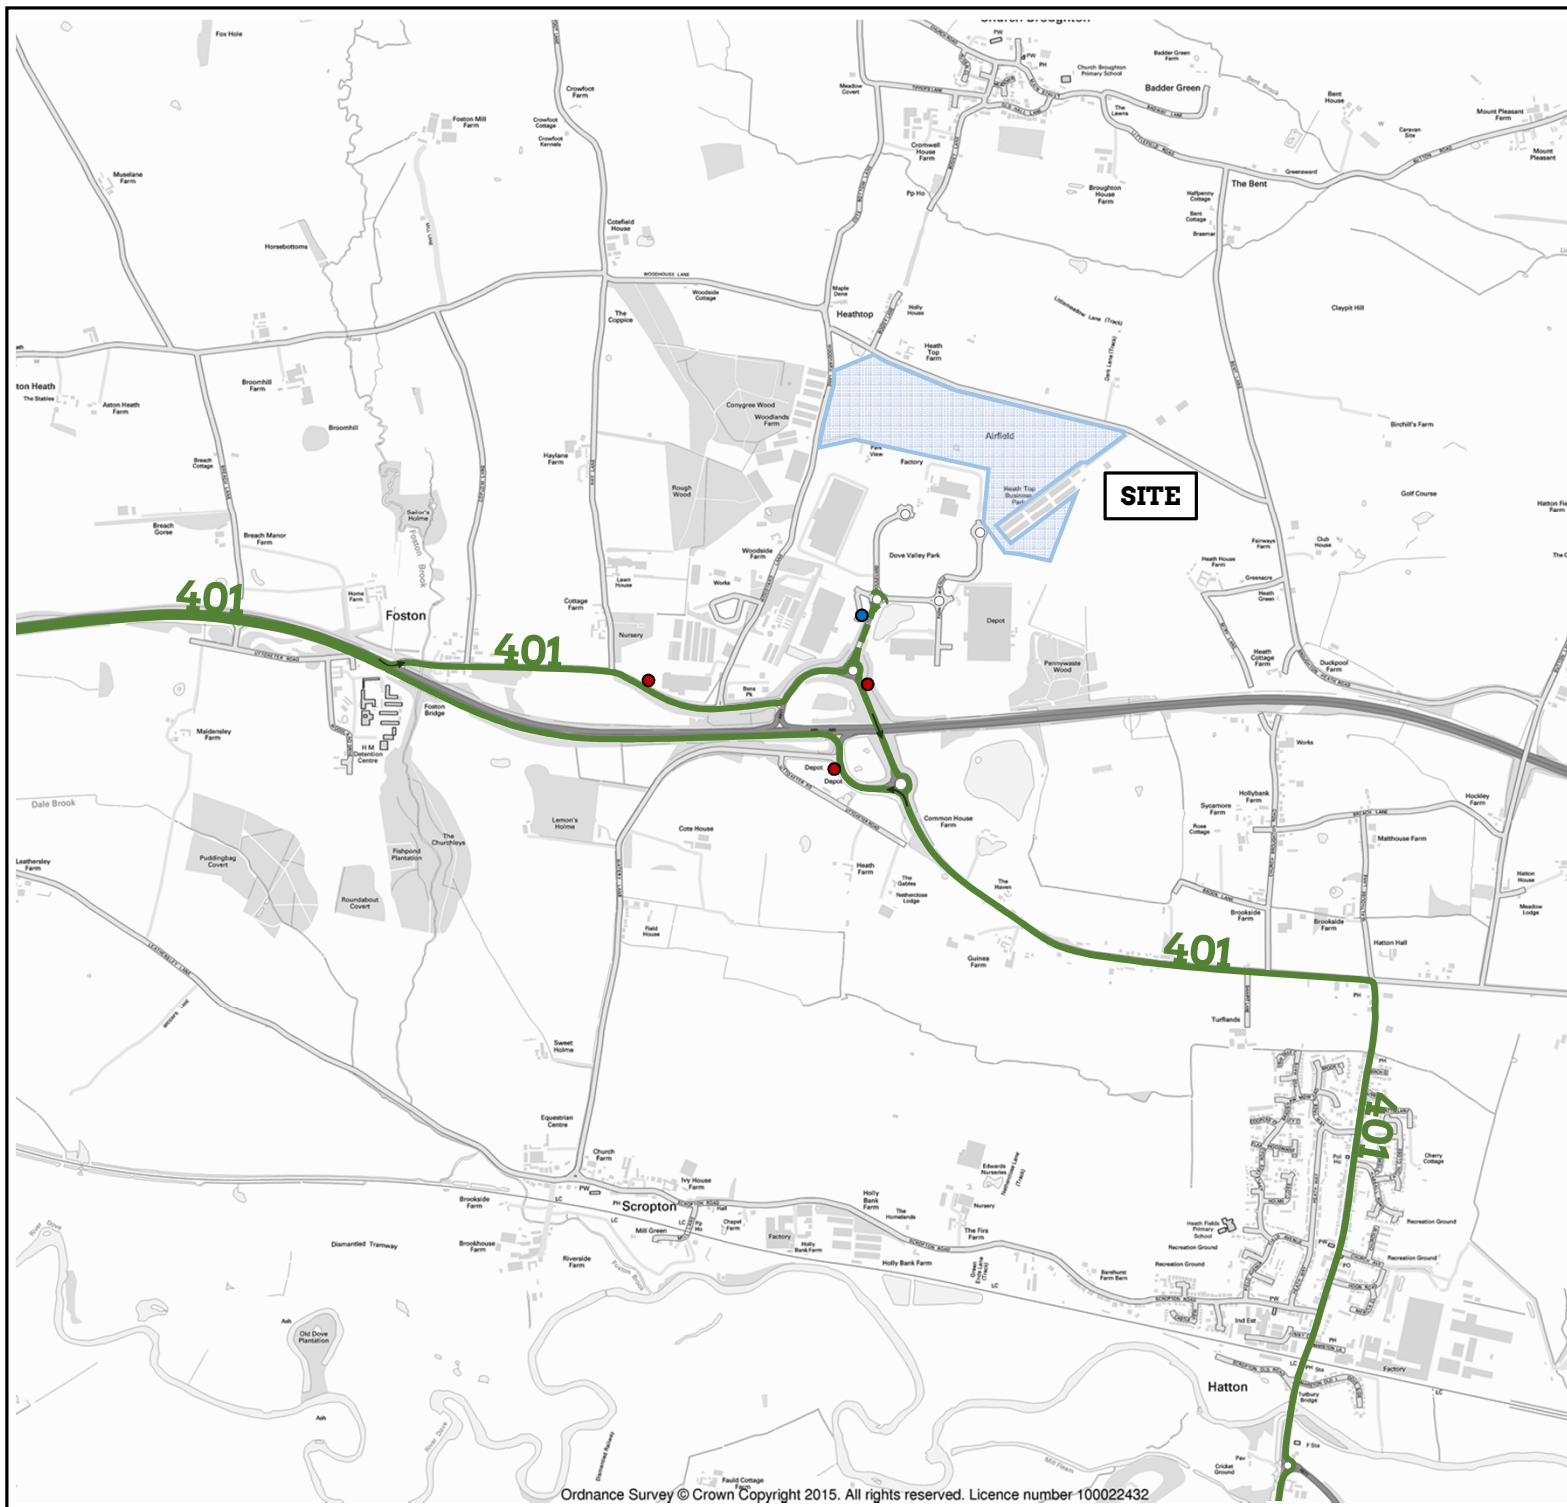

Important information related to service V1 at 11:15:18 on 30th May 2017**Evening Road Closure, Mickleover - between 4 June -11 June 2017 - 20:00 - 06:00 each night*****Valid from 2000 on 04 Jun 2017 until 0600 on 11 Jun 2017***

To facilitate carriageway resurfacing the un-named slip road between Hospital Lane and the A516 Mickleover will be closed between 04.06.17 and 11.06.17 each night between 20:00 and 06:00. The diversion for service V1 will be A516 from Royal Derby Hospital roundabout, A38, A516 Etwall Road. The inbound service towards Derby will be unaffected by this closure.

Timetables

Select a timetable using the bookmarks (on the left of this page). Choose the direction and day of travel you require. Stop and Street Names and SMS codes are also available.
